

Faceasit.

Treatments can be created in this fun and interactive application.

It is a real therapeutic analyzer, with which we can create protocols. Starting with the affected part of the body and the related symptoms you can access formulas and tailor them to each individual client.

In itself Faceasit'clinic is not the therapist, but it is an important aid to start taking control of our health and can avoid the overuse of medication.

Beyond a simple catalogue of pathologies Faceasit'clinic offers the therapist the ability to tailor Dien Chan formulas to each client by adding or deleting BQC-points and to manage each persons file.

It also maintains individual formulas and histories along with the therapists comments, which can be shared with clients in an e-mail.

Always at our finger tips, it is an interactive tool, containing all the current knowledge of Multireflexology - Dien Chan.

All the facial fixed points, diagrams of projection, advice and many reflexology protocols are all within easy reach!

+info and free version on www.Faceasit.com

Le Chan'beauté

Developed by the EiMDC research team, the Chan'beauté technique offers a very new dimension in therapeutic beauty treatments. This highly effective and natural method meets modern beauty standards and helps the active ingredients in facial products to work at maximum strength, as well as avoid surgical procedures.

+info

Complete program, advice and course timetables for each module of Dien Chan and Chan'beauté are available at www.multireflexology.com.

ÉCOLE INTERNATIONALE
DE MULTIRÉFLEXOLOGIE
DIEN CHAN

INTERNATIONAL SCHOOL OF MULTIREFLEXOLOGY DIEN CHAN

Dien Chan is based on multiple diagrams reflecting the body on the face and natural stimulation techniques which never damage the skin.

Reflex zones and fixed points on the face are stimulated with precise, specially designed tools which do not puncture the skin. The original facial reflexology method has diverse applications and results that can be seen and felt from the first session.

By working on the face, with its close proximity to the brain, Dien Chan offers a fast reduction of pain as well as rapid and profound therapeutic results.

Dien Chan compliments both the professional, who wants to expand their therapeutic range, as well as anyone wanting to learn a new technique that offers a quick, natural and effective treatment.

**A complementary and natural method
compatible with most medications!**

EiMDC, the school

Since 2002, and maintaining the original methods of Prof. Bùi Quốc Châu, EiMDC has been researching and publishing the Multireflexology - Dien Chan courses which are now taught world wide by certified teachers.

In Europe and North America EiMDC is the first company that has published course manuals in several languages and created the incredible interactive FACEASiT application, an indispensable educational and therapeutic tool.

The complete course for Multireflexology - Dien Chan is composed of 4 modules:

- ✓DienChan'reflex
- ✓DienChan'clinic
- ✓DienChan'pro
- ✓DienChan'master

to which specialties like Chan'beauté (therapeutic aesthetic) can be added.

By applying the theories, techniques and protocols studied during the course. Students of EiMDC can start practicing Multireflexology from the first module.

We are convinced that sharing enriches our experience!

For this reason, we invite all therapists and students to advise their clients to continue their therapeutic work at home with their own multireflex tools.

Club Dien Chan International

In addition to training, students of EiMDC have access to the exclusive Club Dien Chan International. This allows students to stay in touch with the school through articles and tips updated by the teaching team.

The complete course book and membership to the club are included with the fee for DienChan'reflex.

Visit www.DienChan.club for more information on maintaining your membership.

Clients are more confident with a therapist who shares and advises on natural therapies.

This makes following sessions with your client even more effective. Also, a client who talks about the honesty and talent of his therapist will refer more people. In an ultra-connected world, information is not power and is perishable. It is each and everyone's talent that makes the difference and mark the excellent results that can be obtained in Multireflexology - Dien Chan.

For this reason and to help former students to enact and advise simple treatments, the Club Dien Chan offers a catalog of discount tools. The student can resell multireflex tools he recommends and amortize postage.

Find your tools on www.DienShop.com.

Dien Chan courses

EiMDC offers certified courses in many countries. We have a team of teachers with extensive clinical and teaching experience, who encourage discussion and continued research to keep the technique alive and current.

All course dates and locations are available at:

www.multireflexology.com.

The multireflex tools

The tools are manufactured using the finest materials in a sustainable manner.

Horn (which is recovered from farm animals at the end of their natural life) as well as wood and the finest metals are used in producing each tool. To find lots of tips and tricks to use of each tool visit the online catalogue at:

www.DienShop.com

Dien Chan is a young, vibrant and modern technique. We believe it is important to share to enrich our experience
